Elizabeth,

On behalf of the Dickeyville Rescue Squad, I want to thank your organization for supporting and providing funding for the pediatric emergency kits.

The jump kit has been ordered and received and put into service, with all EMTs being in-serviced on the bag.

This pediatric jump kit was a much needed item on our unit, as our old kit was just a duffle bag with the needed equipment. This new unit is much bigger and better organized and will make treating pediatric patients much easier and less stressful.

Again, thank you Elizabeth for the help you provided us in obtaining this grant, and thank you to the organization that you represent. You are a great service to EMS in Wisconsin.

Sincerely,

Jerry Hesseling
